How can I change my mailbox password?

Email accounts · https://computancy.co.uk/kb/how-can-i-change-my-mailbox-password/

Changing passwords for any mailbox can be done through the computancy control panel.

Log in to clients.computancy.uk and select **Manage Hosting**.

1. Select **Manage** on the hosting package that contains the mailbox you wish to change the password on.
2. Choose **Email Accounts** under **Email**.
3. Simply locate your mailbox and enter a new password and click **Update**. Your new password will have been successfully saved.

Note: You will not be able to recover your old password for the mailbox. We do this to increase your security.
