How much do you charge for extra development work?

Maintenance Packages · https://computancy.co.uk/kb/how-much-do-you-charge-for-extra-development-work/

Custom development work outside our standard maintenance service is currently charged at £75 per hour, covering a wide range of development needs and we always provide a quote and obtain written confirmation before undertaking this work.

For larger, more complex jobs, we will quote either a day rate - currently £500 - or a fixed price to complete the project, again with prior written agreement.
