How much do you charge?

Development · https://computancy.co.uk/kb/how-much-do-you-charge/

We aim to be upfront and clear with all our pricing to avoid any unexpected charges on your invoice!

Currently, the hourly rate for all ad-hoc work is £75, billed in 15-minute intervals with a minimum charge of one hour. For first-time clients, this work is billed in advance; for returning clients, it is payable upon completion of the task.

New website design and development is typically offered at a fixed price, determined after we review your detailed brief. It is generally payable in stages, with 50% of the agreed project cost upfront and the outstanding balance upon publication. For suitable clients, we may agree to a monthly payment plan—please ask for details.

Maintenance or SEO contract prices are dependent on the package that you choose, and details can be found on their relevant pages. They are all payable monthly in advance and automatically billed to your credit or debit card, or via direct debit from your bank through a mandate we can set up for you.

For contract or retainer work, if you guarantee fewer than 5 days per month, the daily rate is £550. For more than 5 days per month, the rate reduces to £500. Contracts are set on a rolling 3-month basis, with 1 month's termination notice required from either side. You are billed for the minimum number of days agreed each month. Any additional days will be added only after a prior written agreement. Contract work must be paid by direct debit at the end of each month.

You can tailor your contract by combining services from several different areas, such as Development or Design, SEO, Maintenance, Technical Support, Image Optimisation, Site Content Updates, or Copywriting. This flexibility allows you to build a comprehensive Full Service Package that best suits your business needs.
