How much does a WordPress website cost?

Development · https://computancy.co.uk/kb/how-much-does-a-wordpress-website-cost/

The cost of a website varies depending on several factors, but a primary one is the time it'll take to complete. If your site is very large or complex, or if you have many images that need optimising and arranging, or you need a lot of text content writing, it will be more expensive than a simpler site or one where you already have all the content 'ready to go'.

Ball-park figures are: Single page 'Landing Pages' start around £500. Bespoke designs start at £1500, dynamic data sites with many unique custom post types will be over £5k going up to around £7 or 8k for large, complex e-commerce sites with many products to add and configure.

We will provide you with a written, costed quote describing the scope of work agreed. If the scope of work changes significantly, then additional costs may be incurred, but these will be agreed in writing before the work is undertaken.
