What happens if my website is hacked, breaks, goes down, etc?

Maintenance Packages · https://computancy.co.uk/kb/what-happens-if-my-website-is-hacked-breaks-goes-down-etc/

We provide care plans to take preventative care and work hard to prevent issues. However, if something does go wrong, we will fix it as quickly as possible.
While we can’t guarantee that your website won’t get hacked, we ensure daily backups are in place for restoration and provide malware removal for any residual malicious code on your server.
